"Thanks to you and your crew, we have had a very successful herring season. I am processing about 750-800 tons a day (we averaged 450 tons last year), which I believe makes us the largest herring operation of our type in the world. I am pleased beyond measures at the performance of our new chiller. Please extend my thanks to your entire crew."
Dan- Silver Bay Seafood, Alaska

CONDENSERS

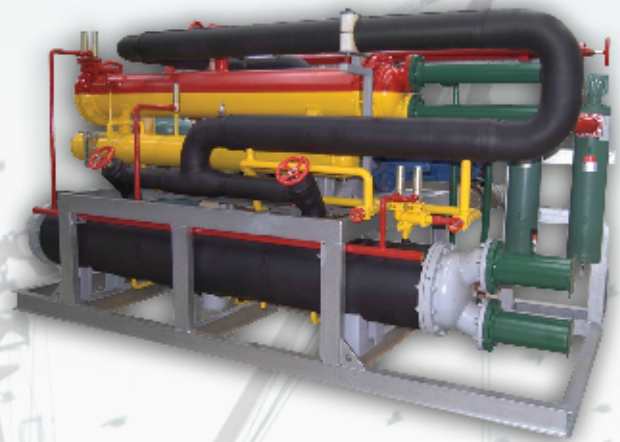

JACKET WATER & OIL COOLERS

"We have enjoyed a professional relationship with Isotherm for nearly two decades. I recommend Isotherm for all refrigeration and heat exchanger needs."
Sam Roberts - Halocarbon Products Corp.
